

Say It Like You Mean It

The Pigeon Detectives

Too afraid to close our eyes
Afraid that we might drift and lose track of the time
The brilliant lie
Blanks my blind
Sends ghosts back to their graves and us back to life
I'm sorry
I'm sorry
Over and over
Over and over
Say it like you mean it
(2x)

The best is when you say the worst is over
It's like sayin' we had luck with a three leaf clover and you
Kept saying that over and over
And I still catch you lookin' over your shoulder and it's okay,
I know the only times you really loved me were the times when you weren't sober
And that hurts
We all hurt
We all hurt
And I kept sayin' that

Over and over
Over and over
Just say it like you mean it
(2x)

For the taste, for the sight, for the sound
For the fight, for the weak, for the strong, for the light
Say it like
You say it like you mean it
For the wait, for the crush, for the fear
For the lush, for the love, for the hate, for the touch
Just say it like
I will wait out for you(3x)
I will wait out
Over and over
Over and over
Just say it like you mean it
(2x)
Just say it like you mean it

(5x)
