Fall In Love

Estelle

Let's just fall in love
So we could fall in love
Let's fall in love
(Let's fall in love)
We could fall in love
(When it's real it could last to the end)
We could fall in love
(Let's fall in love)
Beyond the stars and the moon and the sky
Let's fall in love
I see you, know you see me too
'Cause you're slowing down
Put some extra pep in my step now
I'm trying to be cool make you turn around and check me out
We walk by each other daily
But something 'bout today said maybe
The street signs, the city lights
All the stars, could lead me to you
And you know if it's okay with you
Let's go, go to some place that we don't know
Don't need a reason, baby, it might be crazy
I'm thinking
We should fall in love
We could fall in love
We could fall in love
Beyond the stars and the moon and the sky
Just fall in love
Let's go slow, we got all the time we could ever need
We can catch a movie and possibly
We can get together more frequently
I can't believe that
We walk by each other daily
But something 'bout today said maybe
The street signs, the city lights
All the stars could lead me to you
And you know if it's okay with you
Let's go, go to some place that we don't know
Don't need a reason, baby, it might be crazy
I'm thinking

We should fall in love
(Let's fall in love, let's fall in love)
We could fall in love
(Let's fall in love, let's fall in love)
We could fall in love
Beyond the stars and the moon and the sky
(Let's go)
Just fall in love
If it ain't us, son, in them Air Force 1's
With all this Ros
