

# Tall Tall Shadow

Basia Bulat

Be true or be gone  
You're only fooling yourself  
Open hand or not  
You are holding out  
But there is no light that you can't live in  
Tear it apart  
Your old confession made in the dark  
Now every hour, change of heart  
You're running away  
But the shadow is yours  
Cover all your steps  
One day I know they will be tried  
No deception left  
And now even you might realize  
That there is no lie that you can live in  
Tear it apart  
Your own confession  
Made in the dark  
Now every hour  
Change of heart  
You're running away  
But the shadow is your own, your own  
One day when it finds you, take it to heart  
You can't run away  
When you know that the tall, tall shadow  
Tall tall shadow  
The tall tall shadow  
Tall tall shadow  
Is yours  
No, there is no lie that you can live in  
Tear it apart  
Your own confession  
Made in the dark  
Now every hour, change of heart  
You're running away  
But the shadow is your own, your own  
One day when it finds you  
Take it to heart  
You can't run away when you know

That the tall tall shadow  
Tall tall shadow  
The tall tall shadow  
Tall tall shadow  
The tall tall shadow  
Tall tall shadow  
The tall tall shadow  
Tall tall shadow  
You know the tall tall shadow  
Tall tall shadow  
The tall tall shadow  
Tall tall shadow is yours  
You can't run away  
If the shadow is yours  
You can't run away  
When the shadow is yours  
You can't run away  
No you can't run away  
If the shadow is yours
