Split Second

Steve Allen

(Ohh, ohh)
I did not want to be stuck
One second longer
Than I had to be there
Stuck inside the doorI'm always scared
I'll slam my fingers in the door
Because the last time that I left
I slammed my fingers in the doorWhen you want to get out
You get up
And walk straight through the doorNot stop and think about it
Thinkin' just one second longer
That a car could hit me in it
If I thought more than I didI did not want to be stuck
One second longer
Than I had to be there
Stuck inside the doorI'm always scared
I'll slam my fingers in the door
Because the last time that I left
I slammed my fingers in the doorWhen you want to get out
You get up
And walk straight through the doorNow stop and think about it
Thinkin' that one second longer
That a car could hit me in it
If I thought more than I did(Ohh, ohh)
I did not want to be stuck
One second longer
Than I had to be there
Stuck inside the doorI'm always scared
I'll slam my fingers in the door
Because the last time that I left
I slammed my fingers in the doorWhen you want to get out
You get up
And walk straight through the doorNow stop and think about it
Thinkin' that one second longer
That a car could hit me in it
If I thought more than I did
(Ohh, ohh)
