

# Secret Dreams

## Mind Key

Riding high, then shot down  
I load my guns to fire another round  
I look deep into her eyes  
And can't run, there's nowhere left to hide  
Don't stop, no, it's much too late  
When the night comes I can't wait  
Oh, I live, love to loose control  
It makes me crazy, I want to let you know  
Oh no, I don't want to fall  
Oh, oh, can't you hear me calling  
All night long in my secret dreams  
You tell me I'm the one  
When I'm next to you, next to you  
All I want in my secret dreams  
Is you, here with me  
I got to get to you, get to you, get to you  
There's a thrill in the chase  
We won't lose when we meet face to lace  
Love, games a means without and end  
I go down but I'll be back again  
Through the night with no retreat  
When you're with me in my sleep  
Oh no, I don't want to fall  
Oh, oh, can't you hear me calling

All night long in my secret dreams  
You tell me I'm the one  
When I'm next to you, next to you  
All I want in my secret dreams  
Is you, here with me  
I got to get to you, get to you, get to you  
All night long in my secret dreams  
You tell me I'm the one  
When I'm next to you, next to you  
All I want in my secret dreams  
Is you, here with me  
I got to get to you, get to you  
I can see you  
I feel you every night

I need you  
But I'm only dreaming  
All night long in my secret dreams  
You tell me I'm the one  
When I'm next to you, next to you  
All I want in my secret dreams  
Is you, here with me  
I got to get to you, get to you, get to you  
I'll get to you, come see my [Incomprehensible] baby  
I'll get to you
