

Ride Around

Sarah Davidson

Pick me up
I'll be staring out the window waitin' on you in a little sun dress
Wanna see your truck, a cloud of dust, and that Bulldog hat I like best
Wanna jump inside
Wanna go for a ride
All night, all night I've got my feet up on the dash
I've got my hand out in the breeze
I've got your shotgun seat
Gonna get your lovin' all over me, yeah
I've got all day and half the night
If we run a little late, I don't mind
Cuz right now all I wanna do, is ride around with you
What you say we go
Take a map and throw it out the window
We can take it slow
We can roll down any old dirt road
I've got something we can sip so put your kiss on my lips, yeah I've got my feet up on the dash
I've got my hand out in the breeze
I've got your shotgun seat
Gonna get your lovin' all over me, yeah
I've got all day and half the night
If we run a little late, I don't mind
Cuz right now all I wanna do, is ride around with you Ooooo, ride around, your sleepy little town
Ooooo, ride around, and roll the windows down
I've got my feet up on the dash
I've got my hand out in the breeze
I've got your shotgun seat
Gonna get your lovin' all over me, yeah
I've got all day and half the night
If we run a little late, I don't mind
Cuz right now all I wanna do, is ride around with you (I've got my feet up on the dash)
(I've got my hand out in the breeze)
I wanna ride around with you
(I've got your shotgun seat)
(Gonna get your lovin' all over me)
All night, all night
Wanna ride around, wanna ride around, wanna ride around with you
Wanna ride around, wanna ride around
