

Knocking On Your Door (12" Remix)

Erasure

Send me 'cross the river, take me 'cross the ocean
I just need to be somewhere to sort out my emotions
You know it's up to you, you know exactly what to do
I can't take it anymore, I don't want to come backKnocking on your door, down there on the floor
I don't want to come back knocking on your door
Breaking every law
I don't want to come back, knocking on your doorLove to see me shiver, you'd like to see me break down
I've just got to hide my face, won't see your satisfaction
You know it's down to you, you know this thing I'm going through
I can't take it anymore, I don't want to come backKnocking on your door, down there on the floor
I don't want to come back knocking on your door
Breaking every law
I don't want to come back, knocking on your doorYou know it's up to you, you know exactly what to do
I can't take it anymore, I don't want to come backKnocking on your door, down there on the floor
I don't want to come back, knocking on your door
Breaking every law, I don't want to come backKnocking on your door, down there on the floor
I don't want to come back, knocking on your door
Breaking every law, I don't want to come backKnocking on your door, down there on the floor
I don't want to come back, knocking on your door
Breaking every law, I don't want to come back
Knocking on your door
