METHOD

HASYMO

Heaven is burning
No birds sing
Heaven is burning
It?s a silent spring
Party is over
The circus has left town
It?s the morning after
And you?re coming down
Down
Down
Hell is frozen
Crashing dreams
Cities imploding
Worlds unseen
There?s a method to the madness

Like there?s a reason to this rhyme
The ultimate weapon
The perfect crime
Take me by the hand
Don?t you know
The dammed don?t cry
I can get so low
That I am high
There?s a method to the madness
Like there?s a reason to this rhyme
The ultimate weapon
The perfect crime
There?s a method to the madness
Like there?s a reason to this rhyme
The ultimate weapon
The perfect crime
