

Adrian

Sophie B. Hawkins

Not 'cause you're older or 'cause you're better
Although you're older and you're better
Yes it's truly thrilling
But also 'cause you just let me love you Adrian, Adrian
This is my first time
So, I hope you mean to love me well I never looked for this, I never asked for that
No matter where I kiss your body
Keeps on kissing me back
It's good cause maybe you feel like I do and maybe Adrian, Adrian
This is my first time
So, I hope you mean to love me well Come down from your high chair and speak to me
This complicated situation does not fade me
All I wanna do is lie next to your heartbeat
And I would wait forever on this dirty street for Adrian, Adrian
This is my first time
So, I hope you mean to love me well
