

# Running with the Wolves

## Cloud Cult

Running with the wolves  
It's time for us to go  
Left all our clothes  
With the car back by the roadWe were running  
For a reason  
For the burning  
In our veins  
And we were running  
For a reason  
We just need to get away  
Running with the wolves  
We're screaming at the stars  
Left all we own  
In a hole in a backyardAnd we were running  
For a reason  
Left our cubicles in little flaming piles  
And we were running  
For a reason  
I need to feel something different for just a little while  
I'm not coming home  
I'm staying with the wolves  
You can burn all my mail  
And disconnect my phone  
Tell mom I'm sorry  
Sorry for leaving  
That I'm staying  
But I'm not  
Now we're running  
To find meaning  
We're gone  
And we're never coming back
