

Little Black Heart

[a-ha](#)

I never saw sunlight
Burn as bright
I never felt darkness
The way I feel it tonight You say it's getting better
You say it's alright
But I never felt darkness
Like I feel it tonight Little black heart Raindrops on my window
I can't tell them apart
Like the few things forgiven
In my little black heart You say it's getting better
We just never got it right
But I never felt darkness
The way I feel it tonight Little black heart Some day we will shine
Like the moon in the morning
Like the sun when it's dawning
Yes the sun when it's dawning
The sun Some day we will shine
Like the moon in the morning
Like the sun when it's dawning
Yes the sun when it's dawning
The sun Raindrops on my window
I can't tell them apart
Like a few things forgotten
And a few things ignored You say it's getting better
You say it's alright
But I never felt darkness
The way I feel it tonight Little black heart My little black heart
