

# SPIRIT

## Zircus

Freedom don't come easy, babe  
When your spirit's flyin' up among the clouds  
And when you're faced with wise man's road  
You gotta know where to go  
Sun and the stars are travellin' man's companion  
Leadin' the way for his journey  
East and west wherever you go

Hmm

Leadin' the way

(Ooo)

The first to come

Showin' the way for his children

Now it's up to you

(Ooo)

Do you know you're pullin' through  
Man, it's not easy and you know it  
Children in a happy place they're always smilin'  
Showin' all their love with no deception  
Treatin' each other like brothers and sisters do  
Yeah, yeah

Children in a real good place they're always tryin'  
Jumpin' and playin' in the middle of the afternoon  
Just havin' a ball, don't worry at all, yeah

Leadin' the way

(Ooo)

The first to come

Showin' the way for his children

For now it's up to you

(Ooo)

Do you know you're pullin' through  
Man, it's not easy and you know it  
Children in a happy place they're always smilin'  
Showin' all their love with no deception  
Treatin' each other like brothers and sisters do, yeah  
Yeah, yeah

Children in a real good place they're always tryin'  
Jumpin' and playin' in the middle of the afternoon  
Just havin' a ball, don't worry at all, yeah
