

# Jimmy and Sally

## I Fight Dragons

Sally played guitar  
Down in all the local bars  
She dreamed of making it big  
But Sally never got that far  
Sally writes songs that nobody hears  
But somehow that's ok  
All you gotta know so far is  
Sally played the guitarJimmy got good grades  
Now he works nights and Saturdays  
He always followed the rules  
But it turns out that doesn't pay  
Jimmy doesn't know what he's gonna do  
But he knows he can't go on this way  
And though they may not carry weight  
Jimmy got good gradesWill you try to remember or forget?  
What if living just hasn't happened yet?  
You can wait til forever for a sign  
But what if living is just a state of mind?  
Well I don't wanna be left behindIn the limelight  
Sally takes the stage and  
She lets the whole world know  
She fights her own fights  
She's not the kind of girl that's  
Afraid to be alone  
Cuz Sally when she plays, she plays  
And no one else is on the stageJimmy hides out  
At the top of the stairs  
In his room at night  
He has adventures  
When there's nobody there  
He reads by candlelight  
And when the sun begins to rise  
Jimmy blinks and rubs his eyesWill you try to remember or forget?  
What if living just hasn't happened yet?  
You can wait til forever for a sign  
But what if living is just a state of mind?  
Well I don't wanna be left behindSally leads the way  
Sally saves the day  
Sally goes down swingingJimmy plans and schemes

Jimmy hopes and dreams  
Jimmy looks before leapingSally and Jimmy don't know  
But one day they're gonna make each other  
WholeThey're always learning the hard way  
Build it, break it, then  
Burn it down and start again  
But they're gonna learn some day I bet...Will you try to remember or forget?  
What if living just hasn't happened yet?  
You can wait til forever for a sign  
But what if living is just a state of mind?Will I try to remember or forget?  
What if living just hasn't happened yet?  
I could wait til forever for a sign  
But it turns out living is just a state of mind  
And I don't wanna be left  
I'm not gonna be left...Jimmy and Sally will find their finale  
As people and pieces of my personality  
No one, no one, is gonna be left behind
