Wheels

ACÏŸDC

She was a danger,
Aint no stranger,
You give me rock n roll, around the town,
Just foolin around,
Shes gonna break ya,
Wanna make ya,
Gonna make it,
Wanna take it down,
Shes gonna rock n roll n slide it down,Wheels,
Spinnin around my brain, driving you insane,
Wheels,
Rolling round my head, going through the red,She wanna shake you, no way to save you,
Shes got me shot, Im fallin
Im blowin it out,
Know what Im talkin about,
Shes gonna ride you, wanna slide you,
Aint no fakin she wanna take you out,
You betcha right, shes gonna spin you round,Wheels,
Spinnin around my brain, driving you insane,
Wheels,
Rolling round my head, going through the red,
Wheels,
Flyin down the road, ready to explode,
Wheels,
Burnin down the road, hitting overload,(Guitar Solo)Wheels,
Spinnin around my brain, driving you insane,
Wheels,
Rolling round my head, going through the red,
Wheels,
Flyin down the road, ready to explode,
Wheels,
Burnin up the road, hitting overload,
Wheels,
Hitting overload
Wheels,
Ready to explode
