

The Way (that I Loved You)

Joey McIntyre

Verse) You know that I
I gave my best to you
So where did we go wrong?
And me can't you see
I did it all for you.
Why do we have to sing this song?
Girl with me you know belong.
(Chorus) And I'll never love

The Way that I loved you
I did all for you
And I'll never kiss
And I'll never love that way again.
The way that I touched you

(Verse) Girl it seems to me
You've been gettin' on
And it's plain to see
You didn't cry for long.
So tell me why must we be
Apart for us to see
That we could never ever
(Chorus) And I'll never love

Love this way again.
The Way that I loved you

And I'll never kiss
I did all for you
The way that I touched you
And I'll never love that way again.
(Bridge) Can't we try again?
Does it rally have to end?

Find the strength to make this love survive
Can we reach down deep inside
Oh girl, I did it all for you
If you believe in true romance
Can we give it one more chance?

(Chorus) And I'll never love

The Way that I loved you

The way that I touched you

And I'll never kiss

And I'll never love that way again I did all for you
