

Alone (feat. Peter Godwin)

MetrÃ´

Iâ€™ve nothing to gain
Youâ€™ve nothing to lose
Youâ€™re confused
Why did you come?
Youâ€™re looking for something new
Itâ€™s not a disease
Weâ€™re trying to seize the moment
Some people are straight
and others stay late and weep

Alone - itâ€™s not very funny
Alone - what a waste of time
Later alone weâ€™ll think of each other
later weâ€™ll know what to do
another time - alone

The boy at the bar
is leaving before the morning
well, face up to this
no-one is missing you
And everyone here
has just as much fear of feeling
theyâ€™re colder than ice
a stupid device to stay

Alone - youâ€™re not very happy
Alone - what a waste of time
Later alone weâ€™ll think of each other
Later weâ€™ll know what to do
another time - alone
alone

So why do we come
to find that
thereâ€™s something missing
Well, Iâ€™m losing track
Iâ€™m flat on my back in fear
Governments will
give money to kill each other
and while weâ€™re asleep

they hope they can keep us all

Alone - weâ€™re safer divided

Alone - what a waste of life

Later alone weâ€™ll think of each other

later weâ€™ll know what to do

another time - alone... alone
