

# Full Ride

## 311

Yeah, uh huh, uh  
Aww, shit, what, uhh, you know the freaks can't handle it  
We keep on searchin' from the seaside  
To the mountainside, come on  
Hardly out styled and hardly outblazened  
I'm nectar natural, completely amazing  
Others more concerned with just frontin' on hardness  
I flow sweet with millennium niceness  
I just don't know if they're just scared or what  
But a little sincerity would knock them on their butt  
I keep my dogs at my side and I keep my shit tight  
Let me tell you how I feel, all right  
You all's radio rock ain't tough  
Can't move to that ain't deep enough  
One more time groove on the line  
Chill's up my spine, ready, rewind  
The only thing that never gets old is honesty  
You'll probably be caught up frontin'  
The only thing you always try to be is hard  
Because you're scared that someone might pull your card  
The only thing that never gets played out is melody  
I'm hearin' it callin' me, it's plain to see because it's all laid out  
Full ride, I'm a master of technology  
Livin' my life nice in pursuit of groove-ology  
I'm gettin' vibes like you checkin' me out  
Without a doubt, I pull clout and crush crews in a rout  
I'm a Doberman in any given reaction  
Well-mannered and reserved, yet ready for action  
I let you have it all, I got nothin' to hide  
I tell ya how we comin', we comin' full ride  
Full ride, full ride, we work in on the inside  
As you'd expect we come correct while others just run and hide  
Full ride, full ride, we work in on the inside  
As you'd expect we come correct  
I get fucked up rockin' the jams, I bump disco  
Playin' records all day, I then let go  
I'm the king of my town but when my girl is around  
Parlay like the 'Count of Monte Cristo'  
So simple, jams are in front of me

Get drunk in New York, makin' fun of me  
When we play, it's a serious thing  
To all the people who gather, here's what we bring  
The only thing that never gets old is honesty  
You'll probably be caught up frontin'  
The only thing you always try to be is hard  
Because you're scared that someone might pull your card  
The only thing that never gets played out is melody  
I'm hearin' it callin' me, it's plain to see because it's all laid out  
Yeah, yeah, what, full ride, full ride  
We work in on the inside  
As you'd expect we come correct  
While others just run and hide  
Full ride, full ride, we work in on the inside  
As you'd expect we come correct  
Yes, yes, full ride, full ride  
We work in on the inside  
As you'd expect we come correct  
While others just run and hide  
Full ride, full ride, we work in on the inside  
As you'd expect we come correct, uhh
