Spy vs Spy

The Spinto Band

I'm alone at night
And I just wanna hold you tight
But you're away from me
And I'm alone most days see things
I wonder what you'd say if you'd agree with me
If you'd agree with me
Give my hand a squeeze and tell me that you'll never leaveI'd love to give you everything
I own and make
And I'd love to tell you everything
I know but it's not rightAnd I've been out all night
I've been to places you and I
Would normally laugh about
But I was so polite and I just pretended
To like it as I danced around
As I danced around
But if it's not them they're grabbing
That would make me wanna shoutI'd love to give you everything
I own and make
And I'd love to tell you
Everything I know and say its alright
It's alright, it's alright, that we're alrightAnd I can't sleep without no one else
But you so don't let me leave me
When I say our love is true
And even if we got no money
We've got love and love is plentyI'd love to give you everything
I own and make
And I'd love to tell you
Everything I know and say its alright
It's alright, it's alright, we're alright, we're alright
