# Sold Out

## From Zero

Well, I ain't got much to show for
Can you guess the reasons why
'Cause we gave responsibility
To those who let it pass us by
Now your words don't mean that much to me
Got to get you off my back
I feel this weight upon my shoulders
That never thought would bring me down
I got this feeling I've been sold out and used
And I must make some changes in my life
'Cause I refuse to let people walk on me
I got this feeling I've been sold out and used
And I must make some changes in my life
'Cause I refuse to let it be
All the actions that I didn't take
Gonna try to put my life in place
We know that actions speak much louder
And we learn from our mistakes this time
And it isn't very comforting
To know that you can carry on so free
Got to get us off this one way ride
Before our lives just pass us by
I got this feeling I've been sold out and used
And I must make some changes in my life
'Cause I refuse to let people walk on me
I got this feeling I've been sold out and used
And I must make some changes in my life
'Cause I refuse to let it be
Why don't you tell me, what I have to do and what to say?
Why don't you do it? 'Cause you know it better anyway
I'm sick and tired of the games you always seem to play
Just go away, just go away from me
