Oceans (Prides Remix)

Twin Atlantic

Happier than I was before
I'm hoping now you're here
I'm able to handle itI'm drifting along coastlines and shores
On stepping stones
Just building my confidenceAnd I'm making visits to the sea
For visions of you and me
And when I get there I will row
Oceans between me and my home'Cause I
I don't wanna live
Don't wanna die alone
And it's true
There's nothing out there for me without youI'm making ends meet fixing up cars
Yeah it's the only thing that's keeping my mind awake
Drifting between my favorite bars
All those nights I should have been there for youAnd I'm making visits to the sea
For visions of you and me
And when I get there I will row
Oceans between me and my home'Cause I
I don't wanna live
Don't wanna die alone
And it's true
There's nothing out there for me without youAnd there's nothing I can say
I gave up my life that day
Making sure I was doing just what it takesA blur of a life lived fast
Yeah my heart stopped when you passed
But there is one thing I wanna sayIs I
I don't wanna live
Don't wanna die alone
And it's true
There's nothing out there for me without you
