Installing The Catheter

36 Crazyfists

Through the long sleep
Darkness bleeds
Through the silver and I
Reminded the layout as the wings
They all died
And it all hates like you
Destroys the messageAnother open eye to secrets
With plans to scrape them clean
And I have stacked them higher than anyone believed
And it downplays the scene
It all comes crashing
Don't be removed
I got you where I said that I would always put you
And i'm heading for the bottom
The bottom of you
And i'm heading for the bottom
The bottom of youCome and take me over
The lights have been removed
With pieces at ankles
We answered and it all tastes like you
And all it captures
Take on me as long as you think that you can handle
And taking me to truth and tearing me from scandal
And it all saves like you
Define disaster
Don't be removed
I got you where I said that I would always put you
And i'm heading for the bottom
The bottom of you
And i'm heading for the bottom
The bottom of youAnd don't die like you
Tormented skies
Treated to taste and outlast the sun
I design what ailsDon't be removed
I got you where I said that I would always put you
And i'm heading for the bottom
The bottom of you
And i'm heading for the bottom
The bottom of youColdest of the cold stay outside

Bring on harms way
Coldest of the cold stay outside
Bring on harms way
Coldest of the cold stay outside
Bring on harms way
Bring on harms way
Bring on harms way
