

# Now There's You

## Doyle Lawson

### There Was You

There were times and there were places  
There were hits and there were traces  
But the pieces never fit til there was you  
There were dawns and there were sunsets  
There were wins and there were upsets  
But they never meant a thing til there was you

Ch:

Now thereâ€™s you youâ€™ve opened up my heart  
Now thereâ€™s you youâ€™ve brought new meaning to my life  
I was down you picked me up  
When I was feeling blue  
Now lifeâ€™s so full cause now thereâ€™s you

There were mountains trails and highways  
But they never led me no place  
And I never really cared til there was you  
There was sunny days and dark clouds  
There were nights that I cried out loud  
But no one ever heard til there was you
