

# I Know a Song

## Plan B

We used to get on fine  
Once upon a time  
Yeah, we were alright  
But you were mean Now, we don't talk and it's a shame  
I guess I only have myself to blame  
'Cause girl, you meant so much to me And if I ever see you again  
I know a song I can sing  
If I ever see you again  
I know a song, I know a song  
I can sing All those things that people used to say  
That only got in the way  
The way of you and me  
Oh, they were nothing more than words  
And even if they were  
It don't matter to me, yeah ohh And if I ever see you again  
I know a song I can sing  
Girl, if I ever see you again  
I know a song, I know a song  
I can sing Next time I'm playing out  
If I see you in the crowd  
There's only one song  
I'm a' sing out loud 'Cause girl, I did you bad  
And yes, I made you sad  
I just want you to know If I ever see you again  
I know a song I can sing  
Yeah, yeah, yeah If I ever see you again  
I know a song, I know a song  
I can sing  
Yeah, yeah, yeah If I ever see you again  
I know a song I can sing  
Girl, if I ever see you again  
I know a song, I know a song  
I can sing
