Switch

5ive

You gotta stop, listen up
Checking out my beats
Know the day uniques
Got ya jumping out ya seats, ah
Never bring the same flow upon a track
Better watch your back
When I bring the switch attack, now
People wanna nod, now they go and go
The funk thing that I bring
Make your head wanna ring
Here we come, you know we bring it raw
Get up on the floor 'cos
You gotta get some more
Friday night, party's just around the corner
She'll be there, so I just can't be late

Gotta get my groove thing on
'Cos I'll be dancing all night long

Send me to a place where I can have some fun
[Birdge:]Once I get up on the floor
See me coming back for more
See me rockin' all my moves
Everybody's watching me
Switch
(music) [x4]
9 o'clock, finally my groove is swinging
Things are fine, now I guess it's time to rock
(Guess it's time to rock)
Now the party's on the way
Found out I gotta stay
People start to gather round
And round, and round, and round
[Bridge x2]Switch (music
