Sugarcoat

Tizzy

It started again
Claimin' a friend
I couldn't be
I've never been
I'm all alone
Out in the cold
I'll never know
Your sugarcoat
You're ready to blow
You're ready to go
But I'll never know
Your sugarcoat
It's just as sweet as I am

Chorus

Look what you did
Suck on your lies 'til your eyes are red
What did you say
Willing to drown in a tidal wave
Take me away
Let me believe that you're on the way
Look what you did
Suck on your lies 'til your eyes turn red

I'm on the floor
Battered and bored
You got a taste
That I can't ignore
I'm all alone
Out in the cold
I'll never know
Your sugarcoat
You're ready to blow
You're ready to go
But I'll never know
Your suagroat
It's just as sweet as I am

Chorus x2

Red
Your eyes are red
