You're Right

The Pierces

How can you just sit there with that look upon your face,
when you know that I have one at home that you can't replace?
You tell me that we shouldn't but you'll have to show me how
cause your eyes are saying something else and I want it now
But you're right
You're so right
I just had to tell you baby
I want you tonight
Yeah, you're right
You're so right
But I had to tell you baby
I want you tonight
I got to say I saw this coming from afar,
cause darlin' you're so beautiful, you know you are
Ever since that day I saw you walk into this place,
well it's done something to me I can't erase
But you're right
You're so right
I just had to tell you baby
I want you tonight
Yeah, you're right
You're so right
But I had to tell you baby
I want you tonight
I saw it coming and there it goes
I saw it coming and don't you know, don't you know
That you're right
You're so right
But I had to tell you baby
I want you tonight
Yeah, you're right
You're so right
I just had to tell you baby
I want you tonight
