

# Deep Hole Ends

## The Telescopes

My heaven, washes over me  
Sleeps in doorways, just for me  
Distance moves, it just stays here  
Same as always, I just don't see Oh it's so hard to believe, just be  
And it's hard to imagine, don't try  
Lives by the ocean, and lives by the sea  
Same as always This is where the deep hole ends  
This is where the deep hole ends The right don't rise, they just know  
And the ones who know, don't have to be right  
It's just a matter of something, they want it to be  
Same as always, they just don't see  
Before you know what you're thinking' it's already there  
I'm falling down to my knees, and thinking of you  
If I should answer your questions, then I would just lie  
Same as always
