

# Fallin' Never Felt so Good

Mark Chesnutt

There's a photo in my baby book  
Of the first step that I ever took  
I ended up on my butt with a puzzled look Ever since I've been kinda confused  
When life tripped me up I was easily bruised  
But time has a way of healin' wounds Now I'm a guy who does what he feels  
But I never seem to spot that banana peel  
With eyes shut tight and nerves of steel  
Takin' the plunge baby head over heels Fallin' never felt so good  
It don't scare me like I thought it would  
Coming down, droppin' fast  
I got a feelin' that it's gonna last  
Here I come baby ooh, ooh, ooh  
Fallin' in love with you Who can say what may lie in store  
Smooth sailin' on a sea of love or  
Runnin' aground on a rocky shore Now that I've found you I'm not lettin' go  
'Cause I've been searchin' high and low  
Only one thing that I know  
The higher you take me the deeper I go Fallin' never felt so good  
It don't scare me like I thought it would  
Coming down, droppin' fast  
I got a feelin' that it's gonna last  
Here I come baby ooh, ooh, ooh  
Fallin' in love with you
