Beyond the Sun

Horisont

Speak to me so I can understand your tongue
You seem rather fragile
It's been said, it's cold beyond the sun
Have you ever been there?
Communicating thoughts of ways
To never have to speak again
Let me be the fire in your head
Bring what's yours, I'll take what's mine
And meet you on the other side
We'll leave a sun so anyone can find us
A better place, a sweeter time
We won't need any wings to fly
A place beyond the sun
Look for me the way you would if you were blind
Don't be so resistant
I've been known to travel much too fast
Is that you in the distance?
Communicating thoughts of ways

To never have to speak again
Let me be the fire in your head
Bring what's yours, I'll take what's mine
And meet you on the other side
We'll leave a sun so anyone can find us
A better place, a sweeter time
We won't need any wings to fly
A place beyond the sun, sun
Communicating thoughts of ways
To never have to speak again
Let me be the fire in your head
Bring what's yours, I'll take what's mine
And meet you on the other side
We'll leave a sun so anyone can find us
A better place, a sweeter time
We won't need any wings to fly
A place beyond the sun, sun
