

# Beyond the Sun

## Horisont

Speak to me so I can understand your tongue  
You seem rather fragile  
It's been said, it's cold beyond the sun  
Have you ever been there?  
Communicating thoughts of ways  
To never have to speak again  
Let me be the fire in your head  
Bring what's yours, I'll take what's mine  
And meet you on the other side  
We'll leave a sun so anyone can find us  
A better place, a sweeter time  
We won't need any wings to fly  
A place beyond the sun  
Look for me the way you would if you were blind  
Don't be so resistant  
I've been known to travel much too fast  
Is that you in the distance?  
Communicating thoughts of ways

To never have to speak again  
Let me be the fire in your head  
Bring what's yours, I'll take what's mine  
And meet you on the other side  
We'll leave a sun so anyone can find us  
A better place, a sweeter time  
We won't need any wings to fly  
A place beyond the sun, sun  
Communicating thoughts of ways  
To never have to speak again  
Let me be the fire in your head  
Bring what's yours, I'll take what's mine  
And meet you on the other side  
We'll leave a sun so anyone can find us  
A better place, a sweeter time  
We won't need any wings to fly  
A place beyond the sun, sun
