

Medicine

Guster

Into the maze
Enter the medicine handed down
Within these veins
Bleeding with apathy till it drownsAm I your charity
For you to look so kind?
But your aim is not quite clear
It's better if you leave in quietIs this mood frightening?
Who are you sometimes?
Don't try and rescue me
Go save someone else, I'm far too goneInto the maze
Enter the medicine handed down
Within these veins
Bleeding with apathy till it drownsNo more to gain
Needing the ugliness that surrounds
Return again
Caught in the medicine handed downGasping, calling
I saw, I'm all alone
Grasping, crawling
Is this not what you had planned?Oh
I'm all alone
Go on hero
You're faking no one, not todayStop this, you're scaring me
Don't even know you now
Trying to rescue me
Go save someone else, I'm way past goneInto the maze
Enter the medicine handed down
Within these veins
Bleeding with apathy till it drownsNo more to gain
Needing the ugliness that surrounds
Return again
Caught in the medicine handed downInto the maze
Enter the medicine handed down
Within these veins
Bleeding with apathy till it drownsOh
I'm all alone
Go on hero
You're faking no one, not today
