

# New York City

## T. Rex

Where did you go my little baby  
Where did you go my little baby  
Where did you go my little baby  
From here, from here Walking down the streets like a mad hatter  
Lunacy`s back but does it really matter  
Watch out my man, my lady`s coming  
back to me If your sting was like a bee  
Would you die only for me  
If you go across the sea  
Would you come back to me Deception dissolves like a mind rainbow  
Sunset was dumped dark inside my bedroom  
Barracuda blue, won`t you give  
my baby to me If you go across the sea  
Would you come back to me  
If your sting was like a bee  
Would you die only for me Where did you go my little baby
