Faraway

Alex Lloyd

You've got your shirt on, but it stills feels cold
It still feels cold tonightYour heart's devotion running through your head
Running through you head tonightThe waves around you, they keep crashing in
It's getting deep now but you still can't swimIt just feels faraway, so faraway
This world tonight
It just feels faraway, so faraway
Your world tonightYou're feeling lowly 'cause you miss your friends
You miss your friends tonightThe waves around you, they keep crashing in
It's getting deep now but you still can't swimIt just feels faraway, so faraway
This world tonight
It just feels faraway, so faraway
Your world tonight
