This One's For You

The Concretes

This one's for you, this one's for you
And if you turn around or shake your arms, over youCan't be denied, I had you in mind
Though I know you'll be the last to know, the last to knowThis one's for you, this one's for you
And if you turn around or shake your arms, love youHere comes the dark, here comes the dark, comes the dark
Well, I know the dark, I know the dark, know the dark
And here comes the dark, here comes the dark, comes the dark
And you know the dark, you know the dark, know the darkAnd here comes, here comes, here comes, here comes the dark
And he knows, she knows, she knows, he knows the dark
