Bleed Out

Midaz & Ellie

Just let me bleed till I bleed out
Bleed out
I can't believe you chose
To leave now
Are you free now?

I know love is a game that we all play
Yeah we run and we fall, and we all pay
And it's
Never the same, you might go insane
Still I know that you loved him through all of the pain.
He wasn't perfect
Then again who is?
It just hurts to see you crushed like this
When you figured out a new him
And you thought that you knew him?
Yeah, brain can't come to accept the facts
You would've opened up
I would've had your back
So much to say but I wouldn't know how to
All the love I gave just amounts to nothing
But you can't blame yourself
Memories on the shelf
Hope one day you can dust them off
With a smile
It's okay if it takes a while

Just let me bleed till I bleed out
Bleed out
I can't believe you chose to leave now
Are you free now?
I wish youd've known you weren't alone
Your heart was my home
I don't wanna move on
So let me bleed till I
Bleed out
Are you free now?

When you chose to end

The tick tock of your clock
And you left us all without answers
And that's all she wrote
Had we been holding the pen
I promise we'd have drawn up some friends
We would've helped
And it hits as hard as it hurts
And it hurts
And it's not like my heart just burst
It's worse
And I feel like you should

Just let me bleed till I bleed out
Bleed out
I can't believe you chose to leave now
Are you free now?
I wish youd've known you weren't alone
Your heart was my home
I don't wanna move on
So let me bleed till I
Bleed out
Are you free now?

And you feel so numb
And it got you stuck
You wanna feel his pulse
But he gave it up
I know you can't hold on
And you've had enough

Just let me bleed till I bleed out (So just let me bleed)
I can't believe you chose to leave now (I can't believe it oh)
Are you free now?
I wish youd've known you weren't alone
Your heart was my home
I don't wanna move on
So let me bleed till I
Bleed out
Are you free now?
