

Night of the Jumps

Primal Fear

Do you feel the passion
And celebrate the night of the jumps jumps
Do you feel the passion
Ride the sky flying high night of the jumps jumpComin' out of nowhere the smell of gasoline uh
Adrenaline's risin' and you are ready to win
You're gonna hear the crowd screamin' out your name
Ooh push it to the limit and let the battle beginHigher and higher let me take you over the top
Do you feel the passion
And celebrate the night of the jumps jumps
Do you feel the passion
Ride the sky flying high night of the jumps jumpIt's only one more minute before it's getting loud
It's only one more minute you hear my roaring soundHigher and higher let me take you over the topDo you feel
the passion
And celebrate the night of the jumps jumps
Do you feel the passion
Ride the sky flying high night of the jumpsNowhere you can hold me down
I feel my pressure right on the crowd
Spitting fire and snake skin flames
Are you ready to jump with me
Do you feel the passion
And celebrate the night of the jumps
Do you feel the passion
Ride the sky comin' out of nowhere
Do you feel the passion
Do you feel the passion
And celebrate the night of the jumps
We're gonna celebrate
Do you feel the passion
Do you feel the passion
Ride the sky flying high night of the jumps
Do you feel the passion
Do you feel the passion
And celebrate the night of the jumps
Do you feel the passion
Do you feel the passion
Ride the sky flying high night of the jumps
Do you feel the passion
Do you feel the passion
And celebrate the night of the jumps

Do you feel the passion
Do you feel the passion
Ride the sky flying high night of the jumps
