

# Lay Down Beside Me

[Alison Krauss & John Waite](#)

I've spent my life, lookin' for you  
And findin' my way, wasn't easy to do  
But I knew there was you all the while  
And it's been worth every mile  
So, lay down beside me, love me and hide me  
And kiss all the hurtin' of this world away  
Hold me so close, that I feel your heart beat  
And don't ever wander away  
Mornings and evenings, all were the same  
There was no music, 'til I heard your name  
I knew when I saw you smile  
And now I can rest for a while  
So, lay down beside me, love me and hide me  
Kiss all the hurtin' of this world away  
Hold me so close, that I feel your heart beat  
And don't ever wander away  
And hold me so close, that I feel your heart beat  
And don't ever wander away  
Love me and hide me  
'Til I feel your heart beat
