Bibles and Guns

Sodom

They want to see our castles burning
False religions from a wicked spell
Commit crimes in ice cold blood
The tortured souls to dwellBorn dead creatures live again
Paralyzed to kill themselves
Reality that disappears
Forever buried dreamsThe hate is spreading far away
Or in the neighbourhood maybe
When even life's collapse begins
Just what we needBibles and gunsSeems like a monumental struggle
Of good and mighty evil
Everlasting devastation
Until the death redeemedBorn dead creatures live again
Paralyzed to kill themselves
Reality that disappears
Forever buried dreamsThe hate is spreading far away
Or in the neighbourhood maybe
When even life's collapse begins
Just what we needBibles and gunsThe debris covered our hope
To sleep the endless sleep
Peace no longer rest in my brain
My victim just for meBorn dead creatures live again
Paralyzed to kill themselves
Reality that disappears
Forever buried dreamsThe hate is spreading far away
Or in the neighbourhood maybe
When even life's collapse begins
Just what we needThe hate is spreading far away
Or in the neighbourhood maybe
When even life's collapse begins
Just what we needBibles and guns
Bibles and guns
Bibles and guns
Bibles and guns
