Designs On AKA You

Black Kids

Doctor doctor won't you please come over
There's a pain in my chest, yes that's what I told you
Doctor doctor won't you please come over
There's a pain in my chest, yes that's what I told you
That's the beat of my heart, doctor(s) please won't you comeDoctor doctor won't you please come over
There's a pain in my chest, yes that's what I told her
When she got to my river
Sat down on my bed
and I spoken to her : stopped the spoken
Here's what I said:
Oh baby girl, don't just stand, I'm not a gentle man I don't care about your boyfriend
She said: Your soul, burning just for such a drunken mess. There's no way it's going to happen
Oh baby girl, don't just stand, I'm not a gentle man, oh no noDoctor doctor won't you please come over
There's a pain in my chest, yes that's what I told you
Doctor doctor won't you please come over
There's a pain in my chest, yes that's what I told you
That's the beat of my heart, doctor(s) please won't you come
