Black Sheep

Saliva

I was born into a curse
An outlaw straight from birth
My mama danced around a fire
And pulled me from the dirtI live out in the woods
I'm not misunderstood
Maybe you're thinking that I won't
I'm thinking that I wouldThat's why I'm dressed in black
Ain't ever coming back
'Cause I'm the black sheep of the familyNo, don't look the other way
I'll spit right in your face
'Cause I'm the black sheep of the familyOne, one sick son of a gun
I'm crushing you for fun
Don't find yourself on the wrong end
Of anything I've done'Cause I'll lay you to waste
I guess I like the taste
I'll take you out the back door
And shoot you right in the faceThat's why I'm dressed in black
Ain't ever coming back
'Cause I'm the black sheep of the familyNo, don't look the other way
I'll spit right in your face
'Cause I'm the black sheep of the familyI'm the black sheep of the family
I'm the black sheep of the family
I'm the black sheep of the family
I'm the black sheep of the familyI was born into a curse
An outlaw straight from birth
My mama danced around a fire
And pulled me from the dirtI live out in the woods
I'm not misunderstood
Maybe you're thinking that I won't
I'm thinking that I wouldThat's why I'm dressed in black
Ain't ever coming back
'Cause I'm the black sheep of the familyNo, don't look the other way
I'll spit right in your face
'Cause I'm the black sheep of the familyI'm the black sheep of the family
I'm the black sheep of the family
I'm the black sheep of the family
I'm the black sheep of the familyI'm the black sheep of the family
I'm the black sheep of the family
I'm the black sheep of the family

I'm the black sheep of the familyWhoa, that's why I'm dressed in black
Ain't ever coming back
'Cause I'm the black sheep of the familyNo, don't look the other way
I'll spit right in your face
'Cause I'm the black sheep of the familyWhoa, that's why I'm dressed in black
Ain't ever coming back
'Cause I'm the black sheep of the familyNo, don't look the other way
I'll spit right in your face
'Cause I'm the black sheep of the family
