

# Society's Victim

## Discharge

I'm just a victim of your wildest lies  
Send in my photo with another name  
I'm society's victim  
Nobody has to get you to buy it now  
That's your concern and I don't vote  
I'm society's victim  
I'm just the subject of discussion now  
The one no-one admires  
I'm society's victim  
I'm not just sufferin' from paranoia  
It's invented by you and them  
I'm society's victim
