

# Mission is You

Tata Young

As I make my move to the floor  
There comes a feeling that  
I've never felt before  
I am no longer your prey, I'm the predator With every move that I make  
I keep my hunting eyes on the game  
And when my target is finally found  
Now it's time to play Only one condition before I move  
It's absolute submission no safety fuse  
I won't need your permission I'll break the rules  
So you'd better keep your position  
I'm in hot pursuit, my mission is you No need to talk, when you're caught  
Surrender your thoughts to withdraw  
My orders are to satisfy  
You won't have to beg for more And you'll be wrapped around me  
Trapped around me feeling that  
That you can't live without me, die without me  
Won't look back ever again  
But remember there's  
one thing you should know Only one condition before I move  
It's absolute submission no safety fuse  
I won't need your permission I'll break the rules  
So you'd better keep your position  
I'm in hot pursuit, my mission is you Gonna get a bit of that, where's the thunder at  
Guess I can deliver that, I know  
Gotta deliver that, why you turn your back  
Got you in my track, don't look back Gonna get a bit of that, where's the thunder at  
Guess I can deliver that, I know  
Gotta deliver that, why you turn your back  
Got you in my track, don't look back Only one condition before I move  
It's absolute submission no safety fuse  
I Won't need your permission I'll break the rules  
So you'd better keep your position  
I'm in hot pursuit, my mission is you Only one condition before I move  
It's absolute submission no safety fuse  
I Won't need your permission I'll break the rules  
So you'd better keep your position  
I'm in hot pursuit, my mission is you
