

Your Love (Mark Knight Remix)

Totally Enormous Extinct Dinosaurs

I know my world won't fall apart without you around

Is my time, is my time to quit you now

It's all over girl

(your love)

My world my world I can't give you, right now

I'll be fine, I'll be fine, don't you worry

I'll be in the same world

(Your love)

(Can't give it up, no, no, all I ever wanted was to be with you)

(Feels good)

(Just right)

(Don't you leave me now, that the world is so hard)

I know my world won't fall apart without you around

Is my time, is my time to quit you now

It's all over girl

My world my world I can't give you, right now

I'll be fine, I'll be fine, don't you worry

I'll be in the same world
