

Talamak (First Version)

Toro y Moi

When can we get together again?
Nevermind, I've lost you How can I tell if I love you anymore
Nevermind, I know I do Call you closer to my arms
You'll feel better when you're warm Do you like it when you leave your house?
Do you like it when you're in a town?
That you love
Like one I live in
Like one I live in It's my body's plan I feel another
Timer
Will my love
Slow down It's my body's plan Make another telephone call
Think of you and me
