

# My Little Girl

Jack Johnson

Hey, little girl  
You might not know this song  
This another kind of song that you could sing alongHey, little girl  
Maybe someday  
At least that's what all the good people will sayHey, little girl  
Look what you've done  
You've gonna stole my heart and made it your own  
You stole my heart and made it your ownHey, little girl  
Black and white and right and wrong  
Only live inside a song I will sing to youYou don't ever have to feel lonely  
You will never lose any tears  
You don't have to feel any sadnessWhen you look back only is  
How can I look you in the eyes?  
And tell you such big liesThe best I can do is try to show you  
How to love with no fearMy little girl  
You've gonna stole my heart and made it your own  
You stole my heart and made it your own
