Country Radio

El Oso

I got the Chevy backed down a boat ramp
Tailgate down we got some good jams
Summertime just got a little hotter
Your toes tappin' along in the waterCrank it on up
Pour a little in your cup
You and that backbeat are getting to me
Slide on over
Get a little closer
The beer's on ice
And we got all night
Let's catch a little buzz
Baby, it's just us
And the lightning bugs
And country radioWe'll keep the key turned back to accessory
Turned on the way you're turning me
On in the glow of the dashboard
Let's get to rockin' this 4x4Crank it on up
Pour a little in your cup
You and that backbeat are getting to me
Slide on over
Get a little closer
The beer's on ice
And we got all night
Let's catch a little buzz
Baby, it's just us
And the lightning bugs
And country radioGirl you're lookin' so good
It's feelin' so right
You got me thinkin'
We could do it all nightCrank it on up
Pour a little in your cup
You and that backbeat are getting to me
Slide on over
Get a little closer
The beer's on ice
And we got all night
Let's catch a little buzz
Baby, it's just us
And the lightning bugs

And country radio
Yeah a little country radio
Country radio
