

# Heaven Baby

Brooke Hogan

[Beenie man] Beenie man comin' to ya  
We meet again  
This is Beenie man  
Introducing to you Brooke Hogan  
[Brooke Hogan] I could be your flower baby  
I could be your heart baby  
I could be your power baby  
I can make you smile baby  
I can make you dance baby  
I can make you sing baby  
I could set you on fire baby  
I could be your star baby  
I am your kind i live a real good life  
But something is missing  
In my paradise  
Boy you hold the key  
I saw you in my dreams  
Like an angel without wings  
I want you here with me  
(picture) picture You and me in the breeze  
You and me in the trees  
You and me floating  
To heaven baby  
To heaven baby  
You and me in sea  
You and me running  
You and me floating  
To heaven baby  
To heaven baby  
I could be your remedy  
And give you the good shit you need  
I could make it better baby  
I know these things  
I could wear you on my sleeve  
Even when you're makin' me bleed  
I love it when ya down on your knees  
That's when you need me baby  
I am your kind i live a real good life  
But something is missing

In my paradise

Boy you hold the key  
I saw you in my dreams  
Like an angel without wings  
I want you here with me  
(picture)picture You and me in the breeze

You and me in the trees

You and me floating

To heaven baby

To heaven baby

You and me in sea

You and me running

You and me floating

To heaven baby

To heaven baby

I wanna be the one that you call

Be the one above all

Be the one that you want for life

Be the one that you call

Be the one above all

Be the one that you want for life

[Beenie man]\*\*\*RAP PART\*\*\*

(picture)picture You and me in the breeze

You and me in the trees

You and me floating

To heaven baby

To heaven baby

You and me in sea

You and me running

You and me floating

To heaven baby

To heaven baby

Wherever you are my baby

Whatever you need my lady

Girl you drive me crazy

Be my baby

Whatever you want my baby

Whatever you say my lady

Girl you drive me crazy

Be my baby
