

If You Wanna Have Some Fun

Spice Girls

At the party after the show
I see a face I wanna get to know
Wink wink, nudge nudge
Tell me do you like the rudest stuff
Show me how you've got to make your move
Boy you know, you've got a lot to prove
Wink wink, nudge nudge
Are you man enough?
You got the message, you felt my stare
And now you're walkin' from over there
I ain't that easy, I'll make it hard for you
Ooh, sugar
If you wanna have some fun
Track me down and get my number
You could be the one
(Somethin' on your mind)
If you wanna have some fun
Track me down and get my number
You could be the one
(Somethin' on your mind)
Now you're standin' real close to me
I feel your heat, you wanna get with me
Wink wink, nudge nudge
Tell me do you like the rudest stuff
I love the feeling, wanna make it right
Babe, I'm gonna keep you up all night
Wink wink, nudge nudge
Are you man enough?
Why don't you tell me how you unwind
And if you're open, I'll blow your mind?
I'll take you places, you've never been before
Do you wanna go?
If you wanna have some fun
Track me down and get my number
You could be the one
(Somethin' on your mind)
If you wanna have some fun
Track me down and get my number
You could be the one

(Somethin' on your mind)
If you wanna have some fun
Track me down and get my number
You could be the one
(Somethin' on your mind)
If you wanna have some fun
Track me down and get my number
You could be the one
(Somethin' on your mind)
Come and get some fun
'Cause you know I'll give you some
Just you and me, crazy
You know, I'll be the one
Wink wink, nudge nudge
Tell me do you like the rudest stuff
You're feeling me and dealing me
In every single way
It's a rub a dub style
You know we're gonna play
Wink wink, nudge nudge
Are you man enough?
Come on and tell me how you unwind
And if you're open I'll blow your mind
I'll take you places you've never been before
If you want to have some fun
(Somethin' on your mind)
If you want to have some fun
(Somethin' on your mind)
If you wanna have some fun
Track me down and get my number
You could be the one
(Somethin' on your mind)
If you wanna have some fun
Track me down and get my number
You could be the one
(Somethin' on your mind)
If you wanna have some fun
Track me down and get my number
You could be the one
(Somethin' on your mind)
If you wanna have some fun
Track me down and get my number
You could be the one
(Somethin' on your mind)
If you wanna have some fun

Track me down and get my number
You could be the one
(Somethin' on your mind)
If you wanna have some fun
Track me down and get my number
You could be the one
(Somethin' on your mind)
If you wanna have some fun
Track me down and get my number
You could be the one
(Somethin' on your mind)
If you wanna have some fun
Track me down and get my number
You could be the one
(Somethin' on your mind)
If you wanna have some fun
Track me down and get my number
You could be the one
(Somethin' on your mind)
