

Nerd Girl (Feat. Janelle Monae)

Chester French

The girls I used to chase round
Were nothing but looks
Never cared bout the news I follow
Or my favorite books
Then I met you
And you showed me
To a different path
Now I'm reading you Dostoevsky
And you're doing my math[chorus]
You're my nerd girl
An extraordinary mind
Brain is of a kind so unknown You're my nerd girl
Unpreoccupied with style
The metal in your smile makes you shine[Janelle Monae]
Hello how nice to meet you
I'm Janelle Monae
I wear tiny suits and bow ties
Some might call me strange
Most guys don't enlighten me
But I'm intrigued by you
I'm your nerd girl writing sci-fi
But now I'm riding you[chorus]
You're my nerd girl
An extraordinary mind
Brain is of a kind so unknown You're my nerd girl
Unpreoccupied with style
The metal in your smile makes you shine[Janelle Monae]
I'm your nerd girl
Reading comics in the dark
My favorite station's NPR, yours too
You're my nerd boy
Love your awkward little walk
The way you stutter-talk like you do
