A Million Tears

Kasey Chambers

Take my hand Break my stride Make me smile For every time I've criedHold my heart In the palm of your hand Don't listen to it breakin' Just listen to the bandDo you wanna ride in my car? Its parked out on the street Or just stay with me a while Before I fall asleep? Take these tears Wash your skin I'm havin' trouble breathin' Since you walked inMy hands are tied My head is reelin' My eyes have cried A million tears From wishin' you were hereAll my life I've welcomed pain I've made up more excuses To bring it back againNow I'm here And I'll drink to the shame I'll drink to the madness That made me this wayMy hands are tied My head is reelin'

From wishin' you were hereTake these tears

Wash your skin
I'm havin' trouble breathin'
Since you walked in

My eyes have cried A million tears
